Judi Benjamin, Principal

2010-11 School Accountability Report Card  
Published During the 2011-12 School Year

### Principal's Message

Students are referred to West End CDS from local school districts. Referrals occur as the result of any of a variety of California Education Code violations, including, but not limited to, weapon possession, substance abuse, fighting, graffiti, vandalism, gang activity, or other serious crimes. Students may also be referred through a district's School Attendance Review Board (SARB) for habitual truancy. Additionally, the Probation Department and Children's Services Department refer students to West End CDS when an alternative school placement is suitable. Students must have a referral to attend a county community day school.

### Parental Involvement

In Community Day School classes, parents have the opportunity to participate in the educational process by making a classroom observation, attending Back to School/Open House nights, volunteering time and resources for the improvement of school programs, and involvement in parent-teacher conferences and IEP meetings. All parents are invited to attend School Site Council meetings. Additionally, each parent is required to attend a school orientation meeting with the principal prior to student enrollment.

For more information on how to become involved, contact Judi Benjamin, Principal, at (909)-447-4501.

### School Safety

The School Safety Plan was last reviewed on August 2011. Each teacher was issued a copy of the Safe Schools handbook containing behavior management strategies and practices to promote a safe learning environment. Teachers and administrators from within the County Schools programs developed this handbook. Students participate in a social skills curriculum delivered by teachers. For student safety, regular fire and emergency drills are conducted on individual sites. SBCSS applied for and was awarded a Federal Safety Planning Grant for 2006-2008. The grant has allowed us to contract with consultants to update safety planning to meet the needs of our unique situations. Plan refinement and staff training are in process as a result of this grant. An Emergency Response Management Plan was also developed under this grant and was implemented during the 2008-09 school year.

### Professional Development

During the 2010-11 school year, all staff had opportunities to participate in site-based staff development during after-school workshops, individual mentoring opportunities, and outside conferences in addition to all day Saturday training. Professional development focused on instructional strategies, enhancing the curriculum, safe practices, and classroom management. Teachers who needed to meet highly qualified status in specific content areas also participated in staff development focused on meeting those requirements: VPSS coursework, Autism Certification, and EL Certification.

For the 2008-09 school year, we dedicated two days for professional development. In 2009-10, there were no days, and in 2010-11, there were two days dedicated for professional development.

### Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (i.e., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

### Mission Statement

The mission of San Bernardino County Superintendent of Schools is to transform lives through education. Working in collaboration with school districts, other agencies, families and our community partners, we provide leadership, advocacy and services to ensure innovative, inspiring educational practices. This endeavor is essential to the quality of life and economic vitality of our communities.

San Bernardino County Superintendent of Schools Alternative Education provides all students with a safe and secure environment in which to pursue academic, personal and career goals through innovative instructional strategies.

In accordance with State and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

### California Physical Fitness Test

Each spring, all students in grades 5, 7, and 9 are required to participate in the California Physical Fitness Test (PFT). The *Fitnessgram*® is the designated PFT for students in California public schools put forth by the State Board of Education. PFT measures six key fitness areas:

1. Aerobic Capacity
2. Body Composition
3. Flexibility
4. Abdominal Strength and Endurance
5. Upper Body Strength and Endurance
6. Trunk Extensor Strength and Flexibility

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the *Fitnessgram*®. The table shows the percentage of students meeting the fitness standards of being in the "healthy fitness zone" for the most recent testing period. For more detailed information on the California PFT, please visit [www.cde.ca.gov/ta/tg/pf/](http://www.cde.ca.gov/ta/tg/pf/).

### School Facility Items Inspected

The table shows the results of the school’s most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. The following is a list of items inspected.

- **Systems:** Gas Systems and Pipes, Sewer, Mechanical Systems (heating, ventilation, and air conditioning)
- **Interior:** Interior Surfaces (floors, ceilings, walls, and window casings)
- **Cleanliness:** Pest/Vermin Control, Overall Cleanliness (school grounds, buildings, rooms, and common areas)
- **Electrical:** Electrical Systems (interior and exterior)
- **Restrooms/Fountains:** Restrooms, Sinks/Drinking Fountains (interior and exterior)
- **Safety:** Fire Safety Equipment, Emergency Systems, Hazardous Materials (interior and exterior)
- **Structural:** Structural Condition, Roofs
- **External:** Windows/Doors/Gates/Fences, Playgrounds/School Grounds

### School Facility Good Repair Status

This inspection determines the school facility's good repair status using ratings of good condition, fair condition, or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair, or poor condition. At the time of this school facility inspection, no deficiencies were found.

### School Facilities

West End Community Day School has two “cluster” sites: Upland Community Day School, and David Stine Chaffey West Community Day School. These “cluster” sites contain four to ten classrooms. There are two classrooms located in Rancho Cucamonga – Chaffey North Community Day School. The age of the classroom is 25 years or newer.

David Stine Chaffey West Community Day School, with 10 classrooms, was completed in August 2008.

Custodial services have been contracted to clean sites on a daily basis. An online work order process is used to ensure efficient service and immediate attention to emergency maintenance needs.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2011-12 school year, the District budgeted \$941,789 for the Deferred Maintenance Program. This represents 3% of the District's general fund budget.

### Types of Services Funded

Most federal and state funds are spent at the central office level but support WECDS by providing school counselors, teacher training, additional supports, etc. Textbook funds are spent by the Alternative Education Curriculum Team on state approved texts and materials. These are distributed by teacher – not necessarily by school as some schools may have more teachers than another.

Title I, Part A and other categorical funding is given specifically toward WECDS. These funds were spent according to the school plan and under the direction of the WECDS School Site Council. Items and services purchased with these funds were: bus passes to help improve attendance, after school tutoring and CAHSEE prep classes, supplemental English Language development materials, writing supplemental materials, and additional supplemental materials and services needed to address the specific needs of students.

### Suspensions and Expulsions

This table shows the rate of suspensions and expulsions (the total number of incidents divided by the school’s total enrollment) for the most recent three-year period.

### STAR Results for All Students: Three-Year Comparison

The Standardized Testing and Reporting (STAR) results are evaluated and compared to state standards using the following five performance levels: **Advanced** (*exceeds state standards*); **Proficient** (*meets state standards*); **Basic**; **Below Basic**; and **Far Below Basic**. Students scoring at the Proficient or Advanced level meet state standards in that content area. The tables show the percentage of students that scored at Proficient or Advanced levels in English-language arts, mathematics, science, and history-social science.

### Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program aims to identify strengths and weaknesses to improve student learning. STAR consists of several key tests that are designed for the student's age and individual needs. These tests include: the California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA).

The CSTs are multiple choice tests in English-language arts, mathematics, science, and history-social science for varying grade levels. Some grade levels also participate in an essay writing test. The CSTs are used to determine students' achievement of the California Academic Content Standards. These standards describe the knowledge and skills that students are expected to learn at each grade level and subject.

The CMA is a modified assessment for students with disabilities who have an individualized education program (IEP). It is designed to assess those students whose disabilities prevent them from achieving grade-level proficiency on an assessment of the content standards with or without accommodations.

The CAPA is an alternate assessment for students with significant cognitive disabilities who are unable to take the CST with accommodations or modifications or the CMA with accommodations.

For more information on the STAR program including tests, participation, groups, and scores by grade level, please visit <http://star.cde.ca.gov/>.

## API Testing

Assessment data is reported only for *numerically significant* groups. To be considered numerically significant for the API, the group must have either: (1) at least 50 students with valid STAR Program scores who make up at least 15% of the total valid STAR Program scores, or (2) at least 100 students with valid STAR Program scores.

## API Ranks

Schools are ranked in ten categories of equal size, called deciles, from 1 (lowest) to 10 (highest) based on their API Base reports. A school's "statewide API rank" compares its API to the APIs of all other schools statewide of the same type (elementary, middle, or high school). A "similar schools API rank" reflects how a school compares to 100 statistically matched similar schools. This table shows the school's three-year data for statewide API rank and similar schools API rank, for which information is available.

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of the schools within California. API is measured on a scale from 200 to 1,000. This score reflects the school, district or a student group's performance level, based on the results of statewide testing. The state has set an API score of 800 as the statewide target.

The annual API reporting cycle consists of the Base and Growth API. The Base API data is released one year after testing occurs (i.e. The 2010 Base is calculated from results of statewide testing in spring 2010, but is not released until May 2011). Growth API, released following the Base API, calculates test results taken from the most recent school year (i.e. The Growth API is calculated from results of statewide testing in spring 2010 and released in August 2010). Therefore, for the 2010-2011 API reporting cycle, the 2010 Base indicator and 2011 Growth indicator are used.

To learn more about API, please visit the API information guide at [www.cde.ca.gov/ta/ac/ap/documents/infoguide11.pdf](http://www.cde.ca.gov/ta/ac/ap/documents/infoguide11.pdf) and the API overview guide at [www.cde.ca.gov/ta/ac/ay/documents/overview11.pdf](http://www.cde.ca.gov/ta/ac/ay/documents/overview11.pdf).

\* West End Community Day School is an Alternative Schools Accountability Model (ASAM) school. Schools participating in the ASAM do not currently receive statewide or similar schools rankings on this report in recognition of their markedly different educational missions and populations served.

■ Data are reported only for numerically significant groups.

### Adequate Yearly Progress

The No Child Left Behind (NCLB) Act requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. California public schools and districts are required to meet or exceed criteria in these four target areas:

1. Participation rate on statewide assessments in English-language arts and mathematics
2. Percentage of students scoring proficient on statewide assessments in English-language arts and mathematics
3. API scores
4. Graduation rate for high schools

The table displays whether or not the school and district met each of the AYP criteria and made overall AYP for 2010-11. For more information, visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

### Federal Intervention Program

Districts and schools receiving Title I funding that fail to meet AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate) can enter into Program Improvement (PI). Each additional year that the district or schools do not meet AYP results in advancement to the next level of intervention. This table displays the 2011-12 Program Improvement status for the school and district. For more information, please visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

## Advanced Placement Courses

Advanced Placement Courses are not offered at San Bernardino County Office of Education Schools.

## Admission Requirements for California's Public Universities

**University of California:** Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work.

For general admissions requirements, please visit the UC Admissions Information Web page at [www.universityofcalifornia.edu/admissions](http://www.universityofcalifornia.edu/admissions). (Outside source)

**California State University:** Eligibility for admission to the California State University (CSU) is determined by three factors:

- Specific high school courses
- Grades in specified courses and test scores
- Graduation from high school

Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information see the CSU Web page at [www.calstate.edu/admission/admission.shtml](http://www.calstate.edu/admission/admission.shtml). (Outside source)

## Course Enrollment for UC/CSU Admission

UC/CSU courses are not offered at San Bernardino County Office of Education Schools. For more detailed information, please visit <http://dq.cde.ca.gov/dataquest/>.

## Completion of High School Graduation Requirements

This table shows the percentage of students (who began the 2010-11 school year in the 12th grade) who met all local graduation requirements for receiving a high school diploma including having passed both the English-language arts and mathematics portions of the CAHSEE or received a local waiver or state exemption. Please note state results are not available. For more information, please visit [www.cde.ca.gov/ta/tg/hs](http://www.cde.ca.gov/ta/tg/hs).

### California High School Exit Exam Results

The California High School Exit Exam (CAHSEE) is primarily used as a graduation requirement in California. Students are first tested in tenth grade and have multiple chances to retake the test if the student does not pass the first time. The grade 10 results of this exam are also used to determine AYP for high schools as required by the federal NCLB law. The CAHSEE has two sections: English-language arts and Math. For the purposes of calculating AYP, three performance levels were set: Advanced, Proficient, and Not Proficient.

### CAHSEE Results by Student Group: English-Language Arts and Mathematics

This table displays the percentage of students, by group, achieving at each performance level in English-language arts and mathematics for the most recent testing period.

## No Child Left Behind Compliant Teachers

NCLB requires that all teachers of core academic subject areas be "highly qualified." In general, for a teacher to be considered highly qualified, they must have a bachelor's degree, an appropriate California teaching credential, and have demonstrated competence for each core subject he or she teaches. The table displays data regarding NCLB compliant teachers from the 2010-11 school year. For more information on teacher qualifications related to NCLB, please visit [www.cde.ca.gov/nclb/sr/tg](http://www.cde.ca.gov/nclb/sr/tg).
